

TROCELLEN

Business Unit Adhesive Tapes

FOAMS FOR ADHESIVE TAPES

STRONG BONDS FOR THE FUTURE – As diverse as our customers needs are the products of our Adhesive Tapes Business Unit.

Our multidisciplinary team works with you to develop the best solution for your business and requirements through creative thinking and high-quality products.

Bundled know-how for diversified processes and state-of-the-art production technologies allows us to accept each challenge with a close look on the market and its environmental needs. To realise exceptional ideas, our product and application engineers continuously develop and improve innovative materials and manufacturing techniques.

By using our products in different markets and applications it is our target to offer high quality polyethylene foams to constantly meet the specific requirements of our customers.

Our focus is on thin foams for sophisticated solutions such as carrier materials for self-adhesive applications in the medical market, printing industry, automotive field and insulation business.

YOUR FOAM TAPE PARTNER

We combine material know-how with market understanding and strive forward to strengthen the bond with you.

Develop with us!
